CENTRAL MASS SAFETY COUNCIL AUTO SCHOOL

Driver Skills Development Program *Crash Avoidance Course*

CMSC Auto School has teamed up with local high schools to offer Drivers Education at a reduced cost.

Now, CMSC will offer DSDP at a reduced cost, too!

Any student who attended CMSC's Drivers Education through their high school is welcome to take our 4½-hour, insurance reduction course at the reduced price of \$100 per student!

The MassDOT/RMV has certified CMSC Auto School to offer this course to all Massachusetts drivers for an insurance discount. Most, but not all, insurance companies offer a discount for up to five years. Check with your insurance carrier to see how much you could save today!

The Driver Skills Development Course runs **4½ hours** in duration and combines a **two hour classroom** session with **hands-on, in-car, vehicle control training**. Basic classroom topics include vehicle safety, road rage, high risk situations, crash avoidance, vehicle dynamics and handling.

The track portion of the training places students behind the wheel in a dedicated "skid pad" environment. Students are taught the principles of handling and car control, off-road recovery, emergency accident & obstacle avoidance, and skid control. An in-car instructor carefully monitors student progress and safety at all times.

**ONLY AVAILABLE THROUGH
CMSC AUTO SCHOOL**

186 WEST BOYLSTON STREET
WEST BOYLSTON, MA 01583
